## HOBBIES

- Playing Cricket
- Running in the morning

## PROFILE

- Resourceful web designer with expertise in HTML, CSS, JavaScript, and Bootstrap, adept at quickly learning new technologies and resolving complex code issues. Motivated to collaborate with teams in creating user-friendly websites, with a focus on learning best practices and meeting design standards.

## PROJECTS

### CABER

2023 - 2025

Cab Booking Website

- Developed a full-stack cab booking platform using the MERN stack with role-based JWT authentication, Google Maps API for real-time tracking and fare estimation, and optimized UI and backend performance with MongoDB, Express, React, and Node.js. Incorporated secure payment integration and user-friendly features for a seamless booking experience.

### Traveling Tracker

2024 - 2024

Smart India Hackathon 2024 (Finalist)

- Developed a web-based city bus tracking system using HTML, CSS and JavaScript. Integrated Google Maps API for real-time bus location tracking and estimated arrival times. Implemented a user-friendly interface to search routes, view nearby bus stops, and plan journeys efficiently, enhancing public transit accessibility.

### Card Game

2024 - 2025

3 Patti game

- I developed the '3 Patti' game in Java to enhance my logical thinking and understanding of the language, utilizing control structures like loops and conditionals for game flow. Initially run through the command prompt to gain experience compiling and executing Java programs in a terminal, I later recreated the project using HTML, TailwindCSS, and JavaScript for a web-based version.

## EDUCATION
